CODING PROFILES

- LeetCode:** Solved 100+ Problems
- GeeksForGeeks:** Solved 50+ Problems

PROJECTS

Personal Portfolio Website

- Developed a fully responsive, custom-coded personal portfolio website using HTML, CSS, and JavaScript.
- Engineered a modern UI with glassmorphism effects and successfully deployed it via Vercel for live client viewing.

Modern E-Commerce Product Page

- Built an interactive e-commerce frontend demonstrating advanced JavaScript DOM manipulation.
- Integrated dynamic image galleries, size/color selection logic, and a mobile-first responsive layout to improve user experience.

Local Business Landing Page

- Designed a high-conversion landing page tailored for local restaurants and cafes.
- Implemented an interactive menu section and integrated a Google Maps embed for enhanced local SEO and accessibility.
